WHAT I CALL REAL SERVICE

One day, right in the middle of harvest, a customer hurried in and asked for a replacement part for his 10-year-old combine. I went to the parts bin, and as I came back and plunked the part down on the counter, he grinned and said: "That's what I like about using McCormick equipment. When I do need a part, you always have it or can get it

He started to walk out, and I said, "How about letting our service man put that part on for you? Your machine might need a little adjustment here and there, and he can do that at the same time."

He thought it over for a minute, and laid the part back on the counter. "Go ahead," he grinned. "I've got a couple of other things to take care of here in town anyway. The combine is standing in the field south of the house."

He turned to go, and I mentioned, "If you're not at home by the time he puts on the part, I'll have him try the combine and look it over thoroughly and give you a report. Maybe we can get together and arrange to fix it ahead of time for next season and save you time and trouble." "Go ahead," he agreed again. "That's what I call real

At present it is but a dream into the future, but those who are interested in seeing it continued are hoping that in a short time a building will be built on the fair grounds to house the Hall of Fame, something that every sport lover in Missouri will

If Gen. Dean Likes Kimche He's Really a Rugged Man

This is the national dish-and

what a dish it is!-of Korea. Maj. Gen. William F. Dean in a letter to his wife broadcast this week by the Peiping radio said that during his 17 months as captive of the Reds he had become "fond of rice and kimche."

If this be true, the gallant general has shown as much stamina as a prisoner as he showed heroism on the field of battle. But Mrs. Dean, who has accepted the broadcast letter as authentic, hardly The visit to see grandmother knew what was in store for her came after Christmas and the when she announced she'd learn morning Kathy and her mother to cook kimche for her Bill on and daddy arrived, grandmother his return—if that's what he really asked two year old Kathy what

For some reason unknown to gastronomic science they actually thrive upon it.

It is a matter of known record that a number of American soldiers have tasted kimche once. But in six months in Korea I of having willingly partaken of

It's The Combination It isn't the garlic alone, or the cabbage, or the peppers. It is the combination all together, and the way time weds them, that gives kimche its true strength.

To a Korean kimche smells wonderful. To the average American it just smells. And anybody who has eaten it smells. It lends an incredible distance to the breath. an aroma that seems to endure for days. Most American soldiers who go out with Korean girls begin their courtship with a flat ultimatum: "Let's make one thing clear right now. You gotta choose between kimche and me."

Some American doughboys on outpost duty claim that no enemy could sneak upon them in the night if the wind were blowing their way. The redolence of kimche would give away the attack.

My own prediction is that when General Dean comes home he may get one plate of kimche. But it he asks for a second serving Mrs. Dean will tell him firmly, "Honey believe it or not, but there isn't another clove of garlic left in
